Alexandrina Council | Seagull Ave Reserve - Design 1 FMC 2510-08A

Play areas are subtly zoned: junior play equipment at the front for easy supervision, swings in a separate corner to avoid conflicts, and the tower located at the rear to create a sense of progression and challenge

Natural tones of green and timber finishes reflect the surrounding landscape, while sandstone and suggested planting integrate the playground into its context

Lower slides and platforms ensure inclusive play across age groups, ensuring engagement from toddlers through teens

Rubber soft fall pads link to pathways, improving accessibility and circulation. Rubber in high wear areas reduces maintenance requirements, while mulch adds nature play character

Natural textures and materials blend into the landscape, reinforcing the nature play theme

This design is an initial concept only. Feedback provided by Council and the community will inform the final, revised design.

EQUIPMENT FOCUS

Refer breakdown on following page

Alexandrina Council | Seagull Ave Reserve - Design 1 FMC 2510-08A

EQUIPMENT FOCUS

1. CONNECT MULTIPLAY UNIT

2. TWISTA SAILS

3. ACTIVITY PANELS

4. OBSTACLE COURSE

5. CAPITAL DOUBLE BAY SWING

6. HANGSIE ROCKER

PLAY VALUES

- | | |
|--------------|----------------|
| Balance | Swing |
| Strength | Spin |
| Agility | Rocking |
| Coordination | Sand & Water |
| Climb | Social Play |
| Jump | Role Play |
| Slide | Imaginary Play |

Introducing **THE CONNECT RANGE** by Moduplay

A New Chapter in Playful Australian Innovation

Moduplay introduces the Connect range, a pioneering advancement in our journey of playground innovation. Since our inception in 1989, we have committed ourselves to designing, engineering, and manufacturing playgrounds that enrich communities.

The Connect range epitomises this dedication, blending connectedness, belonging, and a sense of community with contemporary, versatile & modular play solutions.

Extreme Marine Grade Materials: All materials in the Connect range are engineered and treated to withstand Australia's uniquely harsh environment, providing a worry-free solution for extreme coastal playgrounds.

High Quality Extrusions: Incorporates high-quality extrusions in its construction, enhancing the structural integrity and longevity of the play equipment.

Round Post System: Utilises a versatile round post design that allows for flexible attachment of various play elements at different angles.

Sustainability Focus: Over 92% of materials used are sourced locally, reducing environmental impact and supporting local industries.

Non-Toxic Coatings: All coatings are eco-approved and child-safe, adhering to stringent Australian safety standards.

Proprietary Fittings: Features proprietary fittings that improve safety and enhance the visual appeal of the playground equipment.

Recycled & Recyclable Materials: Committed to using materials that are both recycled and recyclable, aligning with environmental sustainability practices.

Modular Design: The range is designed to be modular, allowing for various configurations and customisations to suit different play needs and spaces.

HDPE Cladding: Utilises High-Density Polyethylene (HDPE) cladding, known for its durability and resistance to Australian weather conditions.

Recycled HDPE panels made from our plastic waste is fully recyclable, and strengthens Council commitment to environmentally conscious design

Alexandrina Council | Seagull Ave Reserve - Design 1 FMC 2510-08A

Testing agility, strength and balance, the Obstacle Course becomes a driftwood-inspired challenge, constructed from timber to reflect the natural, coastal character of the site. Timber is fully FSC certified, sustainably grown Australian Cypress, aligning with Council's values of sustainability and local benefit.

The tall tower provides a destination feature for the site, with multiple climbing routes and a large tube slide that draws in older children and creates a true landmark

BASIC SPECIFICATIONS

One Square	1m
Date	15.10.2025

ACTIVITY LIST

Connect Multiplay Unit

- Boulder Wall 900H
- Climber Rope Vertical 1200H x 3
- Fire pole 1200H
- Gable Roof x 2
- Planar Net Rectangle 2M x 1M x 2
- Platform Square x 4
- Pommel Crossing 2M x 900R
- Rope Grid Wall 2M
- Safety Staircase 900H
- Sensory Spin Maze
- Slide Double 1200H
- Tube Slide Spiral 2100H

Capital Double Bay Swing

- Infant Seat
- Nest Seat
- Strap Seat

Obstacle Course

- Balance Beam x 4
- Bushwood Rope Climb x 2
- ZigZag Slalom (Set of 5)

Pixel Ladybug Game
Animal Shuffle Game

Hangsie Rocker

Twista Sails

OTHER MATERIALS

- CSBR Rubber Softfall
 - Dark Green & Beige
- Organic Mulch Softfall
- Concrete Slab
- Rubble Path
- Sandstone Steppers
- Parklane Seat x 2

Please note 3D renders are provided for visualisation purposes only, and product details, colours or finishes may vary in the final product.

COLOUR SCHEME

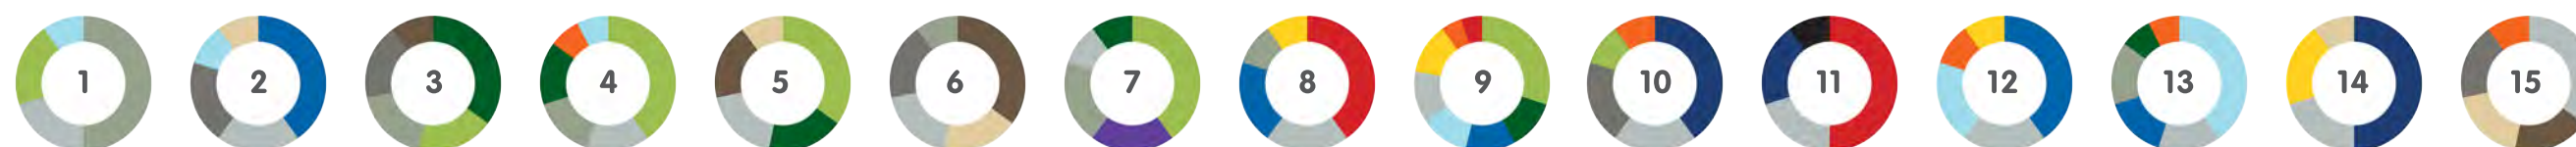

Chosen colour scheme

TREEFERN GULLY

Misty gullies and leaf strewn forest floors with dashes of grey limbs and deep rich soils.

Colour scheme range

1. Sapphire Coast; 2. Sail Away; 3. Daintree Discovery; 4. Bird of Paradise; 5. Treefern Gully; 6. Snow Gum; 7. Native Violet; 8. Flowering Fuschia; 9. Rainbow Lorikeet; 10. Bridge Lane; 11. City Lights; 12. Blue Tang; 13. Coral Reef; 14. Billabong Creek; 15. Paperbark Camp.

Moduplay Colour Schemes

Moduplay Colour Schemes are designed to capture the beauty of Australia, while appealing to children and families to “come and play”.

The unique colour palettes were formulated to provide a colour solution for almost any situation.

There is also a wide variety of colour options available. Please speak to your project consultant for custom colour selections, or for any help regarding colours options.

EVERYONE CAN PLAY

New government guidelines call for a move to Inclusive Playspaces.

These are spaces designed using principles that invite “people of all ages, abilities and cultures to come together to socialise and thrive”

These guidelines help create a focus on community — an idea that is very close to our hearts. And small, clever design nudges can deliver big outcomes.

We work to incorporate Inclusive Playspace concepts into every playground design — whether tiny pocket park or multi-million-dollar community hub.

Five ways to bring Inclusive Play into your playground design

LOCATION

We consider the location of equipment in the playground.

RESTING POINTS

We incorporate resting points around the area for children and carers.

ELEVATED PLAY

We create elevated play and levels of challenge.

ACCESSIBLE FOR ALL

We design equipment that is accessible for all

ENGAGE SENSES

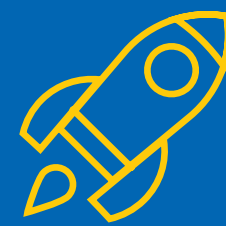

We work to engage all the senses of the children playing

I PLAYING TO LEARN

Play is more than fun and games — it's also a critical childhood development tool! Through play, kids learn how to interact with others and develop lifelong skills.

PHYSICAL

Active play helps kids with coordination, balance, motor skills, and spending their natural energy promoting better eating and sleeping habits.

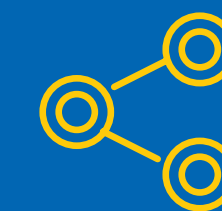

EMOTIONAL

During play, kids learn to cope with emotions like fear, frustration, anger and aggression in a situation they control. They can also practice empathy and understanding.

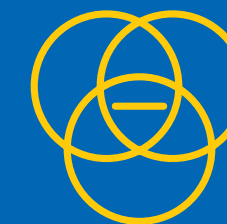

COGNITIVE

Children learn to think, read, remember, reason, and pay attention through play.

SOCIAL

Playing with others helps kids negotiate group dynamics, collaborate, compromise, deal with others' feelings, and share.

COMMUNICATE

Play lets kids exchange thoughts, information, or messages by speech, signals, writing, or actions.

CREATIVE

By allowing imaginations to run wild during play, kids create new worlds, and form unique ideas and solutions to challenges.

I MATERIAL SPECIFICATIONS

POSTS

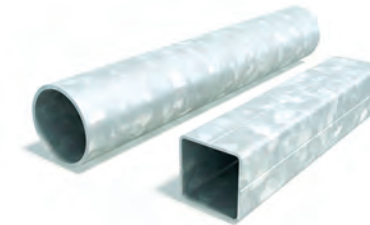

☐ **Aluminium**
Square: 125mm, 75mm, 65mm
Round: 101mm

☐ **Timber***
Square (Premium): 125mm
Organic Round (Bushwood): 200mm
Timber: Australian FSC cypress

*Only available for Premium and Bushwood ranges

☐ **Galvanised Steel**
Square: 65mm
Round: 140mm

ROOFS, PANELS, ACTIVITIES + STANDALONE

☐ **Densapanel**
High Density Polyethylene (HDPE) - 19mm, 12mm

☐ **Rotomoulded**
Low density polyethylene

☐ **Timber**
FSC Hardwood, Varied sizes

☐ **Metal**
304 Stainless Steel, electro gal steel, mild steel and aluminum. Powdercoated colour

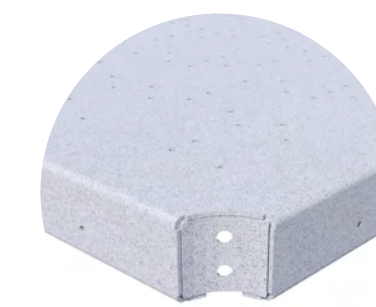

☐ **Rope**
16mm Multifilament braided nylon, galvanised wire reinforced rope

☐ **Fittings**
Stainless Steel, Aluminium, Recyclable Plastics* 2, 4, 5 and 7, EPDM rubber
Includes: Post caps, clamps, proprietary fittings, bolts, nuts, brackets, bump edges

PLATFORMS

☐ **Aluminium**
Folded aluminum. Textured powdercoating

☐ **Timber***
Seasoned hardwood with proprietary bracket system
Timber: Australian FSC Hardwood

*Only available for Premium and Bushwood ranges

SLIDES

☐ **Rotomoulded**
Recyclable Plastic 4 (low density polyethylene LDPE)

☐ **Stainless Steel**
Fabricated stainless steel (Polished)

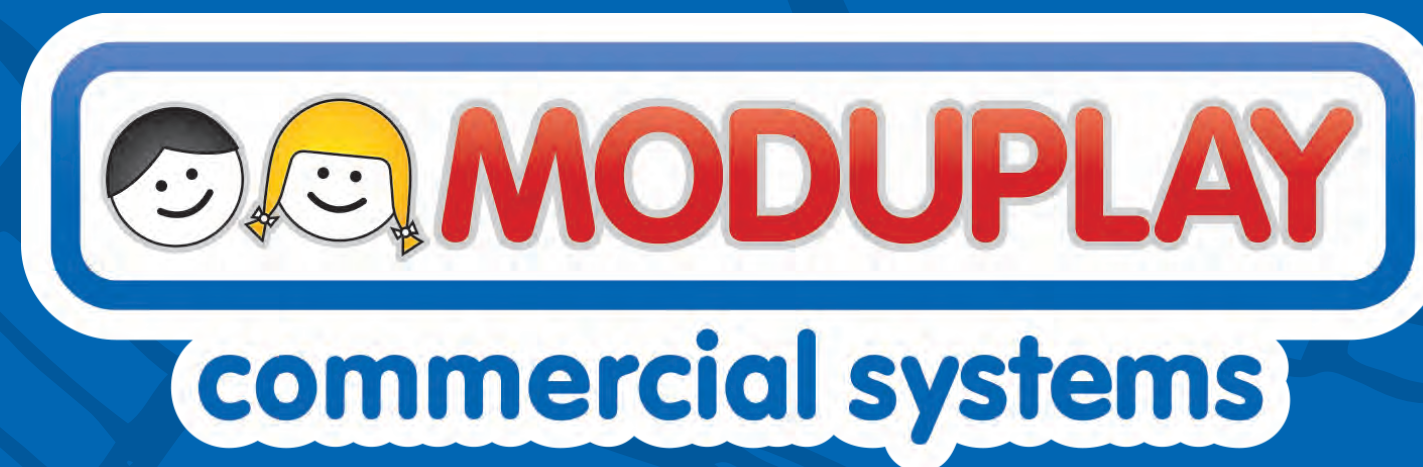

REPLACEMENT PARTS

A full range of swing seats, fasteners, fittings and chains, plus commonly used components are in stock and available on request. All other replacement parts are locally made to order and available for prompt supply.

All Moduplay project and product designs comply with relevant Australian Standards, including AS 4685:2021.

**Rockholds made from durable Polymecia. Please return these to Moduplay at their end of life to be refurbished and reused so they don't end up in landfill.*

Thank you for including us on your **play** journey
